- NOTE: In the Notice of May 9, 2000 "Patents to Issue within Twelve Weeks after Satisfaction of All Outstanding Requirements, Including Issue Fee Payment and Corrected Drawings" [OG, May 9, 2000, page 39] the PTO pointed out the following:

The USPTO implemented the new patent publication system. . . . Under this current patent publication system, the electronic capture of most of the information to be printed on the patent begins soon after the allowed application is received in the Office of Patent Publication, in advance of the satisfaction of outstanding requirements, i.e., issue fee and drawings. The application file is not available for any further processing during this initial electronic capture process. In order to implement the new publication system efficiently, the USPTO encourages applicants to take steps to minimize disruptions in the printing process. The USPTO encourages applicants to file items such as amendments, information disclosure statements, petitions, and corrected or formal drawings as soon as possible during examination of patent applications instead of during the post-allowance time frame. If papers are filed after allowance, please allow at least six weeks after the Notice of Allowance and Issue Fee Due has been received before inquiring about any post allowance correspondence.
